System can be used with more rail type than those listed, complete range of usable rails available on request.

Products and specifications are subject to change without previous notice.

## **GENERAL INSTRUCTIONS**

The selection of a fastening system is a critical, important decision both when placing a track or a single rail.

The wrong selection could have expensive consequences and create serious problems such as:

- Slow down or shut down of the production process.
- Excessive and, or irregular wear of rails.
- Damage of mechanical components of crane.
- Damage to supporting base.
- · Damage to fastening systems.

VALEX fastening systems have been developed building on the experience over more than 100 years of activity.

VALENTE fastening systems offer an unlimited selection of alternatives, which perform in the most effective and efficient way in every situation.

## ASSEMBLING INSTRUCTION

- Place clip facing the rail according to drawing at the distance indicated in the technical card.
- · Insert screw.
- Proceed to a light tightening.
- Control line up of rail.
- Complete tightening.

## **TECHNICAL SPECIFICATIONS**

- Lateral adjustment 8 [mm]
- Side load 70 [KN]
- Torque tightening 320 [Nm]
- Bolt M20 8.8 gr NOT INCLUDED

## **FIXING DETAILS**

VALENTE S.p.A., ISO 9001:2008 Certified, has, as its main objectives maximum assistance and total client satisfaction.

VALENTE S.p.A. assures and guarantees origin and quality of its products and provides all reasonable documentation and assistance.

Products and services provided by VALENTE S.p.A. generate a continuous know how, information and assistance flow, we engineer, manufacturer and market always responsible for our products and projects.
